

PECB Certified ISO 45001 Lead Implementer

Master the implementation and management of Occupational Health and Safety Management Systems (OH&S MS) based on ISO 45001

Why should you attend?

ISO 45001 is the first global Occupational Health and Safety Management System standard that replaces OHSAS 18001. The ISO 45001 Lead Implementer training enables you to develop the necessary expertise to support an organization in establishing, implementing, managing and maintaining an Occupational Health and Safety Management System (OH&S MS) based on ISO 45001. During this training course, you will also gain a thorough understanding of the best practices of an OH&S MS and be able to apply them to continually improve the organization's OH&S performance and ensure the well-being of employees by providing a safe and healthy workplace.

After mastering all the necessary concepts of Occupational Health and Safety Management Systems, you can sit for the exam and apply for a "PECB Certified ISO 45001 Lead Implementer" credential. By holding a PECB Lead Implementer Certificate, you will be able to demonstrate that you have the practical skills and professional knowledge to implement ISO 45001 in an organization.

Who should attend?

- Managers or consultants involved and concerned with Occupational Health and Safety Management
- Expert advisors seeking to master the implementation of an Occupational Health and Safety Management System
- Individuals responsible for maintaining conformance with OH&S MS requirements
- OH&S MS team members

Course agenda

Duration: 5 days

Day 1 | Introduction to ISO 45001 and initiation of an OH&S management system

- Course objectives and structure
- Standards and regulatory frameworks
- Fundamental concepts and principles of occupational health and safety (OH&S)
- Initiate the OH&S management system implementation
- Understand the organization and its needs
- Analysis of the existing system

Day 2 | Plan the implementation of an OH&S management system

- Leadership and worker participation
- OH&S management system scope
- OH&S policy and objectives
- Hazard identification and assessment of risks and opportunities

Day 3 | Implementation of an OH&S management system

- Resource management
- Awareness and communication
- Documentation management
- Operations management
- Emergency preparedness and response

Day 4 | OH&S management system monitoring, continuous improvement and preparation for a certification audit

- Monitoring, measurement, analysis and performance evaluation
- Internal audit
